- High performance computing
- C++, MPI, C, Linux, vim, git
- Message passing, granularity
- Distributed bioinformatics
- Training, knowledge transfer

The Ray logo is centered on the slide. It features the word "Ray" in a large, black, serif font. Surrounding the text are several colored circles: a red circle to the left of the 'R', a green circle between the 'R' and 'a', a pink circle between the 'a' and 'y', and a blue circle below the 'y'. Above the 'R' is a blue circle, above the 'a' is a pink circle, above the 'y' is a red circle, and to the right of the 'y' is a green circle. Additionally, there are two directed graphs: one in the top right corner and one in the bottom right corner, both consisting of white nodes connected by black arrows.

```
typedef void (*MessageTagHandler) (Message*message);  
typedef void (*MasterModeHandler) ();  
typedef void (*SlaveModeHandler) ();
```
